Instructions for 2012 tour of the Lawrence Berkeley National Laboratory:

The tour will last from 10:00 am until about 4:00 pm, and will include a lecture and videos on the Laboratory overall, as well as tours of the Advanced Light Source and the National Center for Electron Microscopy.

If you would like to come, all you need to do is either arrange your own individual transportation or get into a carpool. People who have cars are usually willing to take extra people, and we will as the day approaches try to get people who need rides together with those that have extra space in cars. Alexander Saw is also driving from Davis to make sure we cover everyone.

If driving on your own, directions and two maps are as follows (with supplementary maps galore at: http://www.lbl.gov/Workplace/lab-site-map.html):

- Leave Davis no later than 8:30 am Saturday so as to be able to arrive at LBNL for sure by 10:00 am.
- Take I-80 West and get off at the University Avenue exit in Berkeley.
- Follow University east until it ends at the UCB campus and Oxford Street.
- Turn left on Oxford Street.
- Turn right at the first intersection (a stoplight) onto Hearst Avenue.
- Go uphill on Hearst past two lights, with the second at Euclid and Gayley Road; go right on Gayley Road, past the Greek Theater and then left onto Centennial so as to curve up above the UCB Stadium. **Follow the orange route to Strawberry Gate.**
- Follow Centennial up Strawberry Canyon to the LBNL Strawberry Gate on the right. Enter and turn left following Lawrence Road, the orange route on the map.
- Finally turn right from Lawrence Road into the Building 2 Parking Lot
- Go into the building and make yourself comfortable in the Conference Room 2-100B, where the tour will begin.

Lunch will not be provided, but there is a large battery of vending machines from which sandwiches and other things can be purchased, and a microwave to heat anything you might bring. It will be helpful to bring along change and/or dollar bills for the machines, or to just tote your own lunch.

If you have problems or get lost, call Alexander 925-321-2186 or Chuck at 510-334-8567. Hope to see you there!
