

Faculty Position
In Experimental Condensed Matter Physics
Department of Physics
University of California, Davis

The Department of Physics at the University of California, Davis invites applications for two full-time faculty positions in experimental condensed matter physics. Applications will be considered for appointment at the level of Assistant Professor or Associate Professor, as determined by qualifications and experience. This position represents the launch of a major initiative in condensed matter experimental physics at UC Davis, and offers the opportunity to become part of an exciting program in the design, creation, and fundamental physics of novel materials with multiple positions anticipated in the next few years. Candidates must possess a Ph.D. or equivalent in physics or related area. A successful tenured candidate will be expected to develop a world-class research program, demonstrate excellence in teaching students at all levels, and possess a strong commitment to providing service to the department, university and professional communities. A successful tenure-track candidate will be expected to demonstrate *interest in* and *the potential to achieve* such a record in the areas of research, teaching and service.

The position will remain open until filled, but to be assured full consideration, submit application, CV, publication list, statements of research plans and teaching interests, and contact information for four references, by October 15, 2015. Applications should be submitted online via the job listing **JPF00671** at <https://recruit.ucdavis.edu/apply/JPF00671>

Inquiries may be addressed to CME Search Committee Chair, Department of Physics, University of California, One Shields Ave, Davis, CA 95616, or by e-mail to cmesearch@ucdavis.edu. For further information about the department, please visit <http://www.physics.ucdavis.edu>.

UC Davis is an affirmative action/equal employment opportunity employer and is dedicated to recruiting a diverse faculty community. We welcome all qualified applicants to apply, including women, minorities, individuals with disabilities, and veterans.
