Position Description

The Condensed Matter Theory (CMT) Physics group at the University of California, Davis (UC Davis) invites applications for a postdoctoral scholar research position. The primary worksite for this position is the UC Davis Physics and Astronomy Department in Davis, CA. The responsibilities of this position include elements of both particle physics and accelerator physics, and the successful candidate must have an interest in both. Candidates must have completed a Ph.D. in Condensed Matter Theory Physics or related area(s) prior to beginning employment.

Professor Alex Thomson invites applicants for a postdoctoral research position in Condensed Matter Theory. Research will focus on various aspects of moiré heterostructures, topological materials, unconventional superconductivity, and other strongly correlated phases of matter.

This is a full-time, 2-year postdoctoral scholar appointment with the possibility of renewal based on satisfactory job performance, continuing availability of funding and ongoing operational needs. Salary for this position depends on experience level. This position is represented by a union for collective bargaining purposes and may be subject to a background check.

Interested candidates should send a cover letter, curriculum vitae, a statement of research interests and experience, and arrange for three references to be sent.

The University of California is an Equal Opportunity/Affirmative Action Employer with a strong institutional commitment to the achievement of diversity among its faculty and staff.
