

PICNIC DAY 2025

SATURDAY APRIL 12TH

Join the Physics and Astronomy Department for fun showings all day!

Physics for Fun! Short Lectures on Hot Topics

Learn about exciting ideas and explorations of our physical world, and universe, in **20 minute lectures**, presented by faculty members in the Department of Physics & Astronomy. Every hour, on the hour!

Notes: Attendance will be on a first come, first served basis. Admission will continue so long as space is available.

Schedule of events in lecture hall Roessler 55:

Building a Model Neutron Star in the Laboratory

10:00 AM

Prof. Rena Zieve

Infinites in Mathematics and Physics

11:00 AM

Prof. Richard Scalettar

Particle Accelerators for Science and Society

12:00 PM

Prof. Eric Prebys

"Seeing" Atoms and Molecules on Surfaces

1:00 PM

Prof. Shirley Chiang

The Universe Inside a Crystal

2:00 PM

Prof. Inna Vishik

The Higgs Boson and Fundamental Laws of Nature

3:00 PM

Prof. Markus Luty

UCD Physics Club presents...

Charlie and the Charge Factory

Join Willy Wattka on a wacky yet educational tour through his infamous factory, filled with electrifying physics demos.

Roessler 66

Showings: 10:00 AM, 11:00 AM, 1:00PM, and 2:00PM
